INTRODUCTION

This Report highlights the activities of the Transportation Professional Services Selection Board (TPSSB) during Fiscal Year 2009 in conjunction with the selection of consultants for Architectural/Engineering (A/E) projects processed through the TPSSB, for the Maryland Department of Transportation (Department), in conformance with applicable laws, regulations and internal guidelines.

The contents of this report have been organized under the following topical headings:

- Executive Summary
- Minority Business Participation
- Changes in Laws, Regulations, and Internal Guidelines
- TPSSB Membership and Composition
- Consultant Selections
- Certification for Consultant Services

Appropriate attachments have also been provided detailing Department Consultant Screening Committees and Negotiating Teams membership; consultant selections, including project & proposal data/time involved; projects certified by the Secretary of Transportation (Secretary) for consultant services for FY 09 and cancellations to one (1) previously certified project for FY 03.

EXECUTIVE SUMMARY

The major facts and conclusions contained in this report are as follows:

1. The TPSSB finalized 129 consultant selections, compared to 87 in FY 08. The total fees for these 129 selections amounted to approximately \$536 Million, compared to \$187 Million in FY 08.
2. Of the total 129 selections, all were in excess of \$500,000 and were based upon evaluation of technical proposals and negotiated prices.
3. The total time required to finalize selections on a negotiated basis averaged 20.2 months per selection, with 19.4 months consumed by Transportation Agencies and .8 months by the TPSSB. (These averages exclude major delays attributable to non-selection related matters.) This is an increase over Fiscal Year 08 of 2.5 months per selection in time consumed by Transportation Agencies and an increase of .2 months for the time required by the TPSSB.

MINORITY BUSINESS PARTICIPATION/DISADVANTAGED BUSINESS PARTICIPATION

Of the one hundred and twenty-nine (129) projects in FY 09, one hundred and sixty-seven (167) firms were used as subcontractors, and of those subcontractors ninety-five (95) were MBE/DBE firms.

CHANGES IN LAWS, REGULATIONS, & INTERNAL GUIDELINES

In Fiscal Year 2009, there were no changes to COMAR 21.12.01, 21.12.02 or Sections 12-303 or 13-304 of the State Finance and Procurement Article. Changes were made to the MDOT Architectural & Engineering Consultant Selection Internal Guidelines (Guidelines).

1. State Highway Administration's (SHA) request to update the Guidelines are as follows:

Provisional Overhead Rates – a firm's proposed audited PB&OH rate, whether field or office, is considered provisional and may be adjusted in subsequent contract years at a reasonable rate based upon SHA's acceptance of a firm's future fiscal year overhead audit. For negotiation purposes, SHA will only consider reasonable rates in the original price proposal. Any increases in a firm's overhead rate for a specific contract will be accepted only if such increases are also considered reasonable by SHA.

The Board unanimously approved the revision on November 6, 2008 and requested that SHA work with all other modals that receive Federal funding and prepare written revisions to the existing MDOT TPSSB Guidelines dated April 2003.

TPSSB MEMBERSHIP AND COMPOSITION

During Fiscal Year 2009, the membership and composition of the TPSSB was as follows:

Permanent Members:

- Michelle Nicole Lipkowitz, Chairperson (Public Member)
- Benjamin E. Beavin, Jr., Vice-Chairman (Public Member)
- John D. Porcari, Secretary – thru 6/1/09 (or Designee)
Beverley Swaim-Staley, Acting Secretary – effective 6/2/09 (or Designee)
Carmina Perez-Fowler, (Office of the Assistant Secretary), Secretary's Designee
- Brian J. McAllister, (Office of the Assistant Secretary), Governor's Designee

Temporary Members:

The following Temporary Members represented their respective Transportation Agencies at various TPSSB meetings:

State Highway Administration (SHA):

Robert Gay (Designee)
Paul Becker (Alternate Designee)
Alan Gertner (Alternate Designee)

Maryland Aviation Administration (MAA):

Suzette Moore (Designee)
Carol Stock (Designee)

Temporary Members Continued:

Maryland Transit Administration (MTA):

Stephen V. Silva (Designee)
Priscilla Jeffers (Designee)
Vernon Hartsock (Alternate Designee)

Maryland Transportation Authority (MdTA):

Geoff Kolberg (Designee)
Benjamin Mondell (Alternate Designee)

Assistance was rendered to the TPSSB through the following:

Executive Secretary: (TSO)

Trisha O'Neal

Office of General Counsel: (TSO)

Thomas G. Peter, Deputy General Counsel

Office of Consultant Services: (SHA)

Robert Gay, Director, Office of Procurement and Contracts

Various Consultant Screening Committees and Negotiating Teams of Transportation Agencies:

A list of membership to these Committees/Teams as of July 1, 2009, is provided as Attachment I.

CONSULTANT SELECTIONS

During Fiscal Year 2009, the TPSSB met 13 times, and processed 129 selections on a negotiated basis involving 56 consultant firms. The total cost of the 129 finalized selections amounted to approximately \$536 Million.

Detailed information on the 129 finalized selections is provided as Attachments II - V. An analysis of the data on these Attachments, and other information available in TPSSB files, reveals the following:

1. Projects by Cost Categories:

Costs for each of the 129 selections for which consultants were selected on a negotiated basis ranged from approximately \$500,000 to \$16,000,000.

The following tabulation summarizes these selections by cost categories:

Cost Category \$	No. of <u>Selections</u>	% by No. of <u>Selections</u>
200,001 - 300,000	0	0%
300,001 - 500,000	1	.7%
500,001 - 1,000,000	16	12.4%
1,000,001 - 5,000,000	69	53.5%
5,000,001 - 16,000,000	43	33.4%
Total	129	100%

2. Selections by Technical Proposals/Negotiated Prices:

One Hundred and Twenty-nine (129) selections were finalized based on evaluation of technical proposals and negotiated prices.

Negotiating Teams were able to negotiate a satisfactory contract with the top-ranked firms in all instances at a price, which they determined to be fair, competitive and reasonable.

There is a possibility that the TPSSB could consider a Transportation Agency's recommendation of the award of a contract to the second highest ranked firm. In addition, in cases where simultaneous negotiations with two or more firms for the awarding of identical open-end contracts from one reduced candidate list have not been satisfactory, the Transportation Agency may negotiate with, and recommend the award of a contract to, a lower ranked firm. Neither of these situations occurred in FY 09.

3. Time Involved in Finalizing Selections:

Of the 129 selections, which were finalized on a negotiated basis, the total time required for a selection ranged from 9.5 to 38.5 months, depending on the nature and complexity of the project, averaging 20.2 months per selection, excluding major delays attributable to non-selection related matters. This was measured from solicitation of interest from firms, to final approval by the TPSSB. Related actions occurring during this period were as follows:

An average of 19.4 months per selection was consumed by appropriate Transportation Agencies in making specific selection recommendations to the TPSSB. This covered time necessary for public announcements for solicitation of interest from firms, evaluation of candidate firms, any de-briefings of firms not on reduced candidate lists, preparation of requests for technical and price proposals, and evaluation of these proposals and price negotiations in order to make selection recommendations to the TPSSB.

An average of .8 months per selection was required for the TPSSB to review and finalize all selection recommendations made by Transportation Agencies, including waiting periods necessary for public announcements for TPSSB meetings, and any de-briefings through Transportation Agencies of firms not recommended for selection.

4. Briefs by Dissatisfied Consultants:

One brief was pre-filed with the TPSSB on November 6, 2008. See Attachment VIII.

CERTIFICATION FOR CONSULTANT SERVICES

During Fiscal Year 2009, the TPSSB received and recorded a total of forty-two (42) certifications by the Secretary involving A/E services, which at the time of certification could not feasibly or economically be provided through existing in-house resources, and appropriate Transportation Agencies were directed to proceed with the selection of consultants.

Detailed listings of such projects recorded by the TPSSB as certified by the Secretary are provided as Attachment VI.

PROJECTS WITHDRAWN FROM FURTHER CONSIDERATION

During Fiscal Year 2009, one (1) project, which was previously recorded in FY 03 by the TPSSB as certified by the Secretary of Transportation, was withdrawn from further consideration.

This withdrawn project is provided as ATTACHMENT VII.

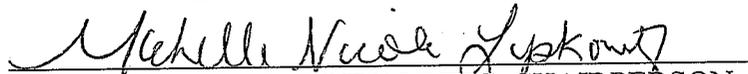

Report of Activities for Fiscal Year 2009 submitted and approved at the TPSSB meeting held on February 4, 2010.

Prepared on behalf of the TPSSB:

BRIEF FOR LANDSCAPE ARCHITECTURE SERVICES – BCS 2007-17

Jeffrey Squires, an attorney, appeared before the Board representing Stephenson & Good, Inc., (“Stephenson”), a landscape architecture firm. He had filed a brief with the TPSSB regarding the firm’s not being included among the six firms selected for price negotiations for SHA Project BCS 2007-17.

Mr. Squires argued that the SHA notice required the selection of firms “whose principal business is landscape architecture”. He argued that SHA had selected two firms that did not qualify based on the requirements of the notice. He also argued that SHA has improperly rated the Stephenson technical proposal.

Robert Gay, representing State Highway Administration, argued that the notice language was not restrictive and was worded in a manner that would encourage additional participation from consultant firms that would not normally compete for SHA contracts. He also argued that the assessment of Stephenson submittal was consistent with SHA’s establish rating criteria and that Stephenson’s overall ranking was correctly described as “average” and “meeting the requirements”. After many follow-up questions from the Board members, a motion was made to deny the brief and to authorize SHA to proceed with price negotiations with the six top ranked firms.

The motion was seconded and passed unanimously.

PROVISIONAL PAYROLL BURDEN AND OVERHEAD RATES FOR SHA

Section 174 of the Transportation, Treasury, Housing and Urban Development, the Judiciary, the District of Columbia and Independent Agencies Appropriation Act (119 STAT. 2396; Public Law 109-115) (HR 3058) amended 23 U.S.C. §112(b)(2) relating to the award of the engineering and design services (A/E) contracts that are directly related to a construction project and use Federal- aid highway funding.

Specifically the law invalidated the MDOT/TPSSB policy allowing a 130% cap on payroll burden and overhead (PB&OH) on SHA A/E contracts advertised on or after December 1, 2005. Under the provisions of HR 3058, a Consultant's PB&OH rates accepted by the firm's cognizant audit agency, are to be used for all contract estimation, negotiation, administration, reporting, and contract payment and shall not be limited by administrative or defacto ceilings of any kind.

To comply with this Federal law, SHA originally presented revisions to the A/E Guidelines which were approved at the August 2, 2007 TPSSB meeting. One of the revisions approved was a requirement for "Fixed Overhead Rates. The specific language as presented was as follows:

Fixed Overhead Rates - a firm's PB&OH rate, whether field or office shall be fixed for the life of the initial contract. SHA will not accept a provisional rate. An adjustment to PB&OH may be negotiated if and when a contract is extended.

Subsequently, SHA had multiple meetings with the American Council of Engineering Companies Maryland (ACEC) to implement this legislation. The ACEC brought to SHA's attention the fact that while it is allowable to have "fixed" payroll burden and overhead rates within a specific contract, it may not be required as a matter of policy. To correct this oversight, SHA proposed that the TPSSB Guidelines and revisions thereto dated August 2, 2007, be further modified to eliminate the requirement of "fixed rates" and implement the acceptance of reasonable "provisional rates".

SHA proposed that the revised A/E Guidelines be further amended as follows:

Provisional Overhead Rates – a firm's proposed audited PB&OH rate, whether field or office, is considered provisional and may be adjusted in subsequent contract years at a reasonable rate based upon SHA's acceptance of a firm's future fiscal year overhead audit. For negotiation purposes, SHA will only consider reasonable rates in the original price proposal. Any increases in a firm's overhead rate for a specific contract will be accepted only if such increases are also considered reasonable by SHA.

The Board unanimously approved the revision and requested that SHA work with all other modals that receive Federal funding and prepare written revisions to the existing MDOT TPSSB Guidelines dated April 2003.
